

## About Body Casting

Dr L L Wolmarans, artist, sculptor and teacher Thank you for your interest in our unique art. Life casting is the art of taking molds directly from the human body .It is an ancient art form dating back to the time of the Egyptians. We are using an extensive collection of life casting kits, supplies and instructional materials to create masterpieces that can be found nowhere else and all at great prices.Artists and chemists worked very hard to provide you with the highest quality life casting materials suitable for application on the human skin. The formulas are used in Hollywood special effects industry, taxidermy, the prosthetics industry, by mold makers , artists and sculptors.Life casting is one of our passions so everyone can be assured that our art pieces are engineered with pride and quality for museum quality results.We make this pledge that our art pieces and training for the up and coming artists will be of quality and passion for the art.We hope you would enjoy this art form and we would love to hear about your experience if you care to write.

**PRO HAND CASTING**  
&ldquo;Museum-quality sculpture&rdquo; is often the description used by our life casting artists to describe the results of their first hands life casting. We call it&rdquo; pro&rdquo; not because you need to be a professional &ndash; on the contrary first time users get outstanding results- its because many of our students go on to cast hands for profit at fairs, homes for the aged , hospitals ,nail salons and special events.

**FRONT TORSO CASTING** Though larger than a face or head , casting the front torso is easier than it seems. Because of the broader surfaces and fewer undercuts even an inexperienced life caster will capture the models torso without difficulty

**EZ-TORSO-MATERNITY**If you have never made a maternity torso casting before you are missing the real fun of live casting.

**HEAD PORTRAIT** A head portrait is perhaps the most classic of all works of art. Also called a &ldquo;bust&rdquo; it is the epitome of three-dimensional portrait art. Some experience is required for best results. We recommend that you try several face casts first. Casting the head can be challenging as both the front and the rear of the head is cast at once.

**FACE CASTING**Face casting dates back to Egyptian times and has been practiced by sculpturers for centuries. And because it makes an extraordinary wall hanging it is the perfect gift for the person that has everything- and it&rsquo;s made by you.

**MY BREAST FRIEND**To capture the beauty of womanhood in all its glory. This is to provide a stunning sculpture of the upper torso of the feminine form. This is easily accomplished by most beginners.
